SELECTED WATER RESOURCES ABSTRACTS

Sept 72

ANNUAL CUMULATED INDEXES TO V.3, 1970

PART 1 AUTHOR
ORGANIZATION
ACCESSION NUMBER

SELECTED WATER RESOURCES ABSTRACTS is published semimonthly for the Water Resources Scientific Information Center (WRSIC) by the National Technical Information Service (NTIS), U.S. Department of Commerce. NTIS was established September 2, 1970, as a new primary operating unit under the Assistant Secretary of Commerce for Science and Technology to improve public access to the many products and services of the Department. Information services for Federal scientific and technical report literature previously provided by the Clearinghouse for Federal Scientific and Technical Information will now be provided by NTIS.

SELECTED WATER RESOURCES ABSTRACTS is available to Federal agencies, contractors, or grantees in water resources upon request to: Manager, Water Resources Scientific Information Center, Office of Water Resources Research, U.S. Department of the Interior, Washington, D. C. 20240.

SELECTED WATER RESOURCES ABSTRACTS is also available on subscription from the National Technical Information Service. Annual subscription is $22 (domestic), $27.50 (foreign), single copy price $3. Certain documents abstracted in this journal can be purchased from the NTIS at prices indicated in the entry. Prepayment is required.

As the Nation's principal conservation agency, the Department of the Interior has basic responsibilities for water, fish, wildlife, mineral, land, park, and recreational resources. Indian and Territorial affairs are other major concerns of America's "Department of Natural Resources."

The Department works to assure the wisest choice in managing all our resources so each will make its full contribution to a better United States—now and in the future.

FOREWORD

Selected Water Resources Abstracts, a semimonthly journal, includes abstracts of current and earlier pertinent monographs, journal articles, reports, and other publication formats. The contents of these documents cover the water-related aspects of the life, physical, and social sciences as well as related engineering and legal aspects of the characteristics, conservation, control, use, or management of water. Each abstract includes a full bibliographical citation and a set of descriptors or identifers which are listed in the **Water Resources Thesaurus** (November 1966 edition). Each abstract entry is classified into ten fields and sixty groups similar to the water resources research categories established by the Committee on Water Resources Research of the Federal Council for Science and Technology.

Sufficient bibliographic information is given to enable readers to order the desired documents from local libraries or other sources. WRSIC is not presently prepared to furnish loan or retention copies of the publications announced.

Selected Water Resources Abstracts is designed to serve the scientific and technical information needs of scientists, engineers, and managers as one of several planned services of the Water Resources Scientific Information Center (WRSIC). The Center was established by the Secretary of the Interior and has been designated by the Federal Council for Science and Technology to serve the water resources community by improving the communication of water-related research results. The Center is pursuing this objective by coordinating and supplementing the existing scientific and technical information activities associated with active research and investigation program in water resources.

To provide WRSIC with input, selected organizations with active water resources research programs are supported as "centers of competence" responsible for selecting, abstracting, and indexing from the current and earlier pertinent literature in specified subject areas. Centers, and their subject coverage, now in operation are:

- Ground and surface water hydrology at the Water Resources Division of the U.S. Geological Survey, U.S. Department of the Interior.
- Metropolitan water resources management at the Center for Urban Studies of the University of Chicago.

- Eastern United States water law at the College of Law of the University of Florida.
- Policy models of water resources systems at the Department of Water Resources Engineering of Cornell University.
- Water resources economics at the Water Resources Research Institute of Rutgers University.
- Design and construction of hydraulic structures; weather modification; and evaporation control at the Bureau of Reclamation, Denver, Colorado.
- Eutrophication at the Water Resources Center of the University of Wisconsin, jointly sponsored by the FWPCA, Soap and Detergent Association, and the Agricultural Research Service.
- Water resources of arid lands at the Office of Arid Lands Studies of the University of Arizona.

In cooperation with the Federal Water Pollution Control Administration, the following "centers of competence" have been established:

- Thermal pollution at the Department of Sanitary and Water Resources Engineering of Vanderbilt University.
- Textile wastes pollution at the School of Textiles of North Carolina State University.
- Water quality requirements for freshwater and marine organisms at the College of Fisheries of the University of Washington.
- Wastewater treatment and management at the Center for Research in Water Resources of the University of Texas.

The input from these Centers, and from the 51 Water Resources Research Institutes administered under the Water Resources Research Act of 1964, as well as input from the grantees and contractors of the Office of Water Resources Research and other Federal water resources agencies with which the Center has agreements becomes the information base from which this journal is, and other information services will be, derived; these services include bibliographies, specialized indexes, literature searches, and state-of-the-art reviews.

Comments and suggestions concerning the contents and arrangement of this bulletin are welcome.

TSCHANNERL, GERHARD
ECONOMIC DECISION FRAMEWORK FOR THE EFFICIENT USE OF DATA SOURCES,
W70-02271 07B W3 06

TSCHORTNER, U. S.
BIOLOGICAL PARAMETERS FOR THE OPERATION AND CONTROL OF OXIDATION PONDS-II,
W70-08392 05D W3 20

TSEMAKHOVICH, B. D.
INCREASING THE CAVITATION RESISTANCE OF PARTS BY USING EXPLOSIVE-WELDED FACINGS,
W70-01127 08C W3 03

TSEN, L. F.
THERMAL REGIME OF TURBULENT BOUNDARY LAYERS AT CONSTANT PHYSICAL PROPERTIES WITH BLOWING, (IN FRENCH),
W70-05779 08B W3 14

TSOUTRELIS, C. E.
DETERMINATION OF THE COMPRESSIVE STRENGTH OF ROCK IN SITU OR IN TEST BLOCKS USING A DIAMOND DRILL,
W70-00357 08E W3 01

TSOU, F. K.
FLOW AND HEAT TRANSFER IN THE BOUNDARY LAYER ON A CONTINUOUS MOVING SURFACE,
W70-05042 08B W3 12

TSUCHIYA, AKIHIKO
THE MECHANICS OF DUNE FORMATION IN ERODIBLE-BED CHANNELS,
W70-05748 02J W3 14

STUDY ON THE LONGITUDINAL PROFILE OF RIVER BED (JAPANESE),
W70-06356 02J W3 16

TSUCHIYA, YOSHITO
MECHANICS OF THE SUCCESSIVE SALTATION OF A SAND PARTICLE ON A GRANULAR BED IN A TURBULENT STREAM,

W70-04582 02J W3 12

ON THE MECHANISM OF THE LOCAL SCOUR FROM FLOWS DOWNSTREAM OF AN OUTLET,
W70-07916 02J W3 19

TRACER STUDIES ON THE MOVEMENT OF SAND AND GRAVEL,
W70-09024 02J W3 22

TSUKAMOTO, W. T.
EFFECT OF SURFACE POTENTIAL ON SCALE FORMATION,
W70-02692 08G W3 07

TSUNODA, Y.
DUAL-PURPOSE NUCLEAR POWER PLANT WITH INCORPORATED PRODUCTION OF SALT,
W70-01733 03C W3 05

TSYBUL'NIK, T. I.
DETERMINING PORE PRESSURE IN SLIGHTLY PERMEABLE SOILS IN THE BODY OF A DAM DURING THE PROCESS OF THEIR CONSOLIDATION,
W70-01091 08D W3 03

TSYGANENKO, A. F.
AEOLIAN MIGRATION OF WATER SOLUBLE MATTER AND ITS PROBABLE GEOCHEMICAL AND SOIL FORMATION SIGNIFICANCE,
W70-02421 02G W3 06

TUCKER, ALLAN
THE RELATION OF PHYTOPLANKTON PERIODICITY TO THE NATURE OF THE PHYSICOCHEMICAL ENVIRONMENT WITH SPECIAL REFERENCE TO PHOSPHORUS. I. MORPHOMETRICAL, PHYSICAL AND CHEMICAL CONDITIONS,
W70-05647 02K W3 14

THE RELATION OF PHYTOPLANKTON PERIODICITY TO THE NATURE OF THE PHYSICOCHEMICAL ENVIRONMENT WITH SPECIAL REFERENCE TO PHOSPHORUS. II. SEASONAL AND VERTICAL DISTRIBUTION OF THE PHYTOPLANKTON IN RELATION TO THE ENVIRONMENT,
W70-05648 02K W3 14

TUCKER, E. V.
THE ORIGIN OF HOLOCENE SHELL DEPOSITS IN THE CHENIER PLAIN FACIES OF ESSEX (GREAT BRITAIN),
W70-01875 02L W3 05

TUCKER, J. M.
ROOTZONE SALT PROFILES AND ALFALFA GROWTH AS INFLUENCED BY IRRIGATION WATER SALINITY AND LEACHING FRACTION,
W70-03807 02G W3 10

TUCKER, K. B. E.
AUTOMATIC METHODS OF SOLVENT EXTRACTION BATCH EXTRACTION OF LOW CONCENTRATIONS OF NON-IONIC DETERGENT FROM WATERS,
W70-06120 05A W3 15

TUCKER, L. SCOTT
SEWAGE FLOW VARIATIONS IN INDIVIDUAL HOMES,
W70-01055 08B W3 03

PRESSURE TUBING FIELD INVESTIGATION,
W70-01058 08A W3 03

HYDRAULICS OF A PRESSURIZED SEWERAGE SYSTEM AND USE OF CENTRIFUGAL PUMPS,
W70-01059 08C W3 03

MINIMUM TRANSPORT VELOCITY FOR PRESSURIZED SANITARY SEWERS,
W70-01060 08B W3 03

ROUTING OF FLOWS IN SANITARY SEWERAGE SYSTEMS,
W70-01067 08A W3 03

TUCKER, L. S.
NON-METROPOLITAN DENSE RAINGAGE NETWORKS,
W70-06317 02B W3 16

HYDRAULICS OF A PRESSURIZED SEWERAGE SYSTEM AND USE OF CENTRIFUGAL PUMPS,
W70-06406 05G W3 16

AVAILABILITY OF RAINFALL-RUNOFF DATA FOR PARTLY SEWERED URBAN DRAINAGE CATCHMENTS,
W70-06573 02A W3 16

TUCKER, RICHARD J.
USE OF MATHEMATICAL MODELS IN WATER QUALITY CONTROL STUDIES,
W70-03488 05B W3 09

USE OF MATHEMATICAL MODELS IN WATER QUALITY CONTROL STUDIES CHAPTER III,
W70-03933 05B W3 10
